Turlington*, his Heirs, &c.) the said Invention, or any Part thereof; or in any wise to counterfeit, imitate, or resemble the same; or to make or cause to be made, any Addition thereto, or Subtraction therefrom; as he, she, or they (so offending) will answer the Contempt of this our royal Cominand, and be liable to such other Penalties as may be inflicted for any Damage the said *R. Witness Ourself at Westminster, the 18th Day of January, in the 17th Year of our Reign.

T H E I N T R O D U C T I O N.

THAT the Human Body is liable to innumerable Disorders, Diseases, and Infirmities, Accidents and Casualties, the Experience of every living Man can testify: However, the Author of Nature has been so kind as to provide a Remedy for every Malady, something to cure or alleviate every Disease, an Antidote for every Poison. To this End, Men of Learning and Genius have applied their Abilities in examining the Productions of Nature, their Virtues and Qualities, and in applying them in such a Manner, as is most suitable to the various Cases that may happen in Physical Practice. The Animal, Mineral, and Vegetable World has been ransack'd, and such Extracts made from each of them, as have been, in some Form or other, render'd serviceable to the Health of Man.

Whoever has felt the acute Pains occasioned by the Gout, Stone, Gravel, Rheumatism, Cholick, and many other corporeal Disorders, can best tell how welcome Relief is, how much they esteem the Hand that brings them Recovery from their painful and laborious Condition. Health is an invaluable Blessing, but by none so highly prized, as by those who have woefully experienced the Want of it, who will always retain the most grateful Remembrance of the Means which brought Health to their broken and disordered Constitution, and Happiness and Length of Days to their worn out, miserable Lives.

These Observations are abundantly confirmed by the vast Number of Instances produced in the
fol.

following Certificates, of the Cures perform'd by *Turlington's Specific Balsam*, or *Balsam of Life*; a chymical Preparation, which seems peculiarly adapted, in the very Nature of it, to remove the various Maladies that are incident to the Human System. It is a perfect Friend to Nature, which it strengthens and corroborates when weak and declining, vivifies and enlivens the Spirits, mixes with the Juices and Fluids of the Body, and gently infuses its kindly Influence into those Parts that are most in Disorder. Its Operations are gentle and insensible, as its Virtues are efficacious, both uniting in the Re-establishment of a decay'd Constitution; and is a friendly Restorer of Health, after perhaps many Years spent in Pain and Misery.

I might here expatiate on the Virtues of this most incomparable Balsam: But whoever will give themselves the Trouble of perusing the following Certificates of the Cures perform'd by it (every one of which is undeniably attested) must acknowledge, that what I have here affirmed of its Efficacy and noble Virtues, comes greatly short of its real Worth and Excellence. Read, then, and see if thy Case resembles any of those before thee; if it does, apply this BALSAM, and, my Life for thine, it will prove as effectual in removing thy Disorder, as it did in the Instance here given for thy Information and Satisfaction.

CURES Perform'd by
TURLINGTON'S
Balsam of Life.

To Mr. Turlington.

SIR,
HAVING been for two Years and upwards under the Hands of several eminent Physicians, who in vain tried all their Skill to cure me of a violent Pain in the Back and Bowels, and other wandering Pains, as Stitches in the Side, Pain in the Stomach, and such like Complaints; I at length took the Advice of Mrs. Brown, Shopkeeper, at *Barnes*, to try only a Bottle of your Balsamick Drops, by virtue of which, to my great Surprise, my Disorder was quite carry'd off. It caus'd me likewise to discharge several large Stones, with abundance of Sand and Gravel; and I recover'd my lost Appetite to Admiration. In Gratitude therefore for the Benefit I have receiv'd, I thought it my Duty to acquaint the World with my Cure, that the Afflicted may know where to find Relief in the like Case.

Your's, &c.

Esther Ladd,

(Wife to a Gardiner at *Barnes* near *Putney*)

Witness, *Mary Brown.*

THIS is to certify the Publick, that having been for some time afflicted with Rheumatick Disorders, I was at length advised to try the Efficacy of *Turlington's Drops*: I accordingly bought a Bottle of it; and by taking it twice only was to my infinite Surprise and Joy perfectly cured; as witness my Hand,

Hezekiah Coffin (Master of a Ship)
Witness, *Samuel Raglass* (Commander.)

~~~~~  
**I** *Joseph Hutchinson*, of the Parish of *St. Botolph, Aldersgate, London*, do hereby declare that I was afflicted with the Rheumatism to so violent a degree, that I lost the Use of my Limbs; but accidentally meeting my Acquaintance Mr. *Turlington*, and telling him my Case, he gave me about half a bottle of his balsamic Drops; which in about 6 Hours recover'd me to that Degree, that I was able to go about my business. I had also a violent Cough, which at the same time I lost surprisingly. *Joseph Hutchinson.*

Witness, *Matthew Hatch.*

~~~~~  
THIS is to certify that I *Richard Ruth*, Shipwright, of *Rotherhithe, Surry*, having been troubled with violent Pains in the back, occasion'd by a Fall, by taking three times of *Turlington's Balsam of Life* was perfectly cured, without any symptoms of the Hurt remaining. *R. Ruth.*

WHereas I *Antb. Bouch*, Lighterman,
of the *Bank-side*, near the *Falcon-stairs*,
Southwark, was terribly disorder'd with
the *Stone and Gravel*, I hereby declare,
that I found surprising *Relief* by *Turling-*
ton's Balsam of Life, that excellent *Remedy*
occasioning me to *discharge Stones and*
Gravel in a most extraordinary manner.

Witness

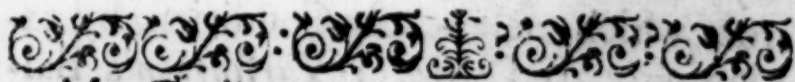

Anthony Bouch.

William Lister,
Francis Davison.

I *Thomas Smith*, of the Parish of *Christ-*
Church, Spittle-fields, do hereby certify
that my Wife was for many Years griev-
ously afflicted with the *Stone and Gra-*
vel; but by two or three times taking some
of *Turlington's Balsam of Life*, she dis-
charged a vast Quantity of *Stones and*
Gravel. This she declares was entirely
effected by virtue of the aforesaid *Balsam*.

Thomas Smith.

Mr. Turlington,

I AM bound in gratitude to acknow-
ledge the benefit I receiv'd from your
Balsam. My Case was this: About 10
years ago I had an unfortunate Fall from

a Horse, by which I receiv'd an inward Bruise, the Effects of which fell upon my Lungs, occasioning a short Cough that has attended me ever since. I try'd a vast Number of Medicines to no Purpose, till I made trial of your *Balsam of Life*, by taking only about half a bottle whereof, I was entirely releas'd from my Cough, and am now as well as ever I was in my Life; which I declare to be entirely owing to the Efficacy of your *Balsam*. This you have my free Leave to publish, for the Information of the Unfortunate.

I am, your's, &c. *Avery Taylor*,
at the *George-Inn* near *White-Chapel*
Church, London.

Witness, *Capt. George Gibbs*.

I *Sarah Smith*, of the Parish of *St. Bride's* *London*, hereby certify, that I was taken with violent Disorders in the Bowels, Back, and Stomach, attended with such Faintings and Lowness of Spirits, that my Life seem'd to be in great danger; from which melancholy Condition, by taking only 30 Drops of *Turlington's Balsam*, I was in less than three Hours perfectly recover'd, to the no small Admiration of all my Friends. *Sarah Smith*.

Witness, *Capt. Cole*.

I Samuel Barker, of *Leostoff*, in *Suffolk*, master of a ship, desire it may be made known, for the Good of others, that I was violently afflicted with the Stone and Gravel; for the Cure of which I took Mrs. *Stephens's* medicines, which were so nauseous, that I loath'd the very thoughts of them; and was advised to try a bottle of *Turlington's* Balsam of Life. Accordingly, being bound for *Dantzick*, I took a Bottle of it with me to Sea, entirely leaving off Mrs. *Stephens's* Medicines; and whenever I found the Disorder coming upon me, I took about 20 Drops of this Balsam, in Wine, or Wine and Water mix'd; which gave me present Relief, by bringing away Gravel and Stones surprisngly large. *Samuel Barker.*

SARAH Barker, Sister to the above-mentioned *Samuel Barker*, likewise certifies, that she was taken with violent Pains in the back and loins, and continued in very great Disorder, not knowing her Ailment. But observing the benefit her Brother had receiv'd by *Turlington's* balsam of life, she took 15 Drops thereof; and after the second dose, of the same quantity, she discharged several Stones, and was perfectly relieved. *Sarah Barker.*
Witness, *Samuel Barker.*

I WILLIAM Mund, of *Yarmouth*,
 Commander of a Vessel in the Coal
 Trade, having receiv'd great benefit from
Turlington's balsam of life, think in Justice
 I ought to make it known, and accordingly
 hereby certify, that I was taken with
 such a Trembling and Shivering, that I
 was near an Hour in walking from *Leaden-
 ball-street* to the *Gun Tavern* at *Billings-
 gate*, being the Distance of about a Quarter
 of a mile ; with which I was so fatigued,
 that (tho' naturally of a fresh colour) I
 was as pale as Death, and ready to expire.
Mr. Turlington happening to be then pre-
 sent, desir'd me to take a few of his Drops,
 and gave me 20 in a Glass of Wine, which
 in 5 minutes sensibly reliev'd me ; and
 repeating the like Dose about 12 Minutes
 afterwards, I was so surprisngly restor'd
 to my former Health, Complexion and
 Vigour, that I went on Board my Ship,
 where being scarce of Hands, and obliged
 to sail the next Day, I went to work my-
 self (about 2 in the Afternoon) and
 work'd all Night, till 10 the next Morn-
 ing, finding myself as well as if I had ne-
 ver ailed any thing. This I declare is the
 Truth, and desire it to be made public
 for the Good of mankind, and as a grate-
 ful Acknowledgment for the benefit I
 have receiv'd,

W. Mund.

THIS is to certify, that I *Thomas Whorlton*, of *Stockton upon Tees*, master of a ship, was for about a Month extreamly disordered with the Gout in my Arms and Foot, (which latter was swell'd to such a Degree, that I could not wear the biggest Shoe I was able to procure) and tried all possible Means I could think of or was advised to, for Relief, but to no Purpose; till I was recommended to the Use of *Turlington's Balsam of Life*, with which (being then at *Petersburgh*) I was supplied by Capt. *Ranton*; and by taking one Bottle only, was thereby perfectly recovered.

Thomas Whorlton.

Mr. Turlington,

I Write this to satisfy you, and the Publick, if you please, that I *Thomas Killham*, Chief Mate of the *Heathcote*, Capt. *Cape* Commander, in the Service of the Hon. United Company of Merchants of *England* trading to the *East-Indies*, was for about four Hours tormented with a most racking Pain in the Bowels, being griped in a most violent manner: but by taking only a few Drops of *Turlington's Balsam of life* in a glass of wine, was perfectly and instantly cured; which I shall gratefully acknowledge as long as I live; and am your humble Servant, *Tb. Killham.*

Witness *Thomas Detbick,*

Abraham Hinton,

Robert John Harrison,

MEeting my old Acquaintance Mr. *Turlington*, on the *Royal-Exchange*, after mutual Salutes, he seeing me lame, kindly ask'd me what was my Ailment. I told him, I had got the Gout. If it be so, said he, come along with me to my House, and possibly I may give you something that will relieve you. Accordingly I went with him, hobbling slowly along with my Shoes down at Heel. When we came to his House, he gave me about 25 Drops of Balsam in a Glass of genuine Usquebaugh: I then went on board my Ship, lying at Cox's Wharf, and in about an Hour felt no Pain in either of my Feet; and was the next morning so perfectly cured (evidently by this Balsam only) that I was able to pull my Shoes up at Heel, and to go about my business as usual.

W. Roberts,
Commander of a Ship.

WHEREAS I *Richard Fendick*, of *Tarmouth*, Commander of the Ship *Sarah*, was afflicted with a violent Cold for some time, which by settling on the Lungs occasion'd a flegmatick Disorder, attended with a *Tabes* or Wasting, and a continual Pain in the Pit of the Stomach; so that I was apprehensive of falling in a short time into a deep Consumption: but by taking only one bottle of *Turlington's* ballam I was to my great Astonish-

nishment perfectly cured. I drank it in Water and in Wine both, and found it as good in Water as in Wine for my Disorder.

Richard Fendick.

Witness,

Capt. Elliot, Thomas Case. — King.

I *George Longtofft* of *Whitby*, Carpenter to *Capt. Henry Clark*, by Accident had the Misfortune to cut my great Toe almost off ; for which I was advised immediately to make use of *Turlington's* Balsam ; and by only pouring a few Drops of it into the Wound, I was cured in a few Days, without any other Application.

George Longtofft,

Witness, *Capt. Henry Clark.*

WHereas I *James Lee*, Chamberlain, at the *Bell-Inn* in *Friday-street*, was disorder'd so violently with the *Dry Gripes* or *Cholick*, that I was not able to stand or go, but lay on the Floor like a man ready to expire; Mr. *Turlington* accidentally being there, desired I would order somebody to get me a Glass of Wine, which I directly did, and he drop'd into it about 25 Drops of his Balsam, which in a few Minutes surprisngly cured me.

James Lee.

! ! ! ! !
IN grateful Remembrance of the Benefit I receiv'd from *Turlington's* Balsam of Life, I do thus publicly acknowledge, that I was extremely bad with a Cough, occasion'd by a violent Cold, for the Cure of which I took several medicines to no purpose, till happening to be in Company with Mr. *Turlington*, at the *Buenos-Ayres* Coffee-House in the *Minories*, and he observing me to cough so violently, as to be troublesome both to myself and all the Gentlemen present, he recommended me to take a few of his Drops, which I accordingly did; and by continuing the same for a Day or two, my Cough left me in a very wonderful manner.

John Caswall,
 Commander of a Ship.

A Servant of Capt. *Webster*, of the Parish of *St. John's, Wapping*, had the misfortune of a Pipe-stave falling on his Head, which cut him to the Scull, so that you might have laid your Thumb into the Wound ; but by speedily applying some of *Turlington's Balsam* to the Wound, the blood was stopt immediately, and the Patient cured without any further Application.

WHereas I *William Cooke*, of *St. Edmundsbury, Suffolk*, was violently afflicted with the Stone and Gravel, for which I could obtain no Relief, till I happily experienced *Turlington's Balsam of Life*, this is to certify, that by virtue of the said Balsam I in about halt an hour discharged a large Stone, and shortly after a large quantity of Stones and Gravel. This I declare to be true. *W. Cooke.*

MR. *Will. Davis*, Door-keeper to the Hon. United Company of Merchants of *England*, trading to the *East-Indies* (at their House in *Leadenhall-street*) had been disorder'd with the Rheumatism for four months. Witness, *John Solly*, *John Walker.*

A Native of the Island of *St. Hellena* was so violently afflicted with the Stone, Gravel, and Cholick, that he did not expect to be long for this World, having been unable to make Water for four Days. He had already try'd all the Medicines that were possible to be had in that Country, but could obtain no Relief, when I being there, went to see him, and (finding him in that desperate Condition) gave him about 25 Drops of *Turlington's Balsam of Life* (a Bottle of which I had about me) in a Glass of White-wine; which in about 20 Minutes caused him to discharge by Urine about a Quart of Water, to his surprising Relief, and in about two Days, by repeating the Dose, he was perfectly restored. Samuel Penford.

THis is to certify, That I *H. Westray*, at the *George* in *George-yard, Lombard-street, London*, used to be frequently disorder'd with a violent Pain in the Pit of my Stomach, accompanied with Lowness of Spirits; till (all other Medicines I had hitherto taken having failed) I applied to *Turlington's Balsam of Life*; of which taking about 15 Drops in a Glass of Wine, to my great Admiration it gave me present Relief, not only at that time, but at all times afterwards, when ever I occasionally repeated the same. Extract of a Letter sent by Mr. Taylor, Chief Mate
of the *Cæsar*, in the United East-India Com-
pany's Service, dated at St. Helena, April 15, 1744.

To Mr. TURLINGTON.

Sir,

I Have already disposed of all the Balsam
of Life, except six Bottles, which I don't
chuse to part with, intending to keep
them for my own use. All persons that
have taken it have received great advantage
thereby, and I am held in great esteem,
for having introduced a remedy famous for
performing so many remarkable cures on the
natives of this place; two or three of which
take in brief, as follows: A young woman
(about 16 years of age) was cured of a de-
sperate pain in the stomach, by taking about
15 drops of your Balsam. Mr. Smith of
Lemon-Valley was cured of a dangerous
flux, which he had for some time, by one
bottle only; after taking whereof for 2 days
he was able to come aboard the ship, eat a
heartly dinner, and continues in perfect health.
Mr. Harper, of this place, applied it to re-
lieve a stitch in his side, and met with the same
happy success, that is, a compleat cure. And a
slave belonging to the same gentleman (who
had been lame for many years) was, by
means of the aforesaid Balsam, relieved of
his infirmity, and render'd capable of work-
ing, which before he was unable to do. I
shall

shall not trouble you at present with any further detail of the virtues of your incomparable Balsam, but think in justice the world ought to be made acquainted with the goodness thereof. I am your humble Servant,

Thomas Taylor.

THE Wife of Capt. *Samuel Deane*, of the Parish of St. *John, Surrey*, was frequently disorder'd with a violent short Cough, accompany'd with the Gravel, and a Pain in the back; for the Cure of which she had recourse to *Turlington's Balsam of Life*, and by only twice taking of it was reliev'd, to her very great Satisfaction. Witness, *Samuel Deane*.

I *Thomas Williams*, living at Mess. *Gallatley and West*, Distillers, at *Aldgate*, do hereby declare, that for the Space of three Weeks I was severely tortured with the Gravel, and that by only taking some of *Turlington's Balsam of Life* I was in two Days perfectly cured, being as easy as if I had never once felt the Effects of the aforesaid most torturing Malady. *Thomas Williams*.

Witness

Joseph Iron, Servant at the same House.

AS all Men are liable to Accidents and Casualties, I thought it might be useful to acquaint the Publick, That I *William Stanridge*, of *Shields*, by an Accident, on board my Ship, receiv'd so violent a blow on the Head, that the Contusion penetrated to the very Scull itself, so that you might have laid your Finger on the bare bone; of which seemingly irrecoverable Distress, by applying *Turlington's Balsamic Drops* to the Wound, I was as well in one Week's Time as if I had receiv'd no Hurt.

William Stanridge.

Witness, *Walter Wood.*

I *Nathaniel Leake*, of *Sunderland*, Commander of a Ship in the Coal Trade, was for a long time troubled with a flegmatick Disorder, and Rising in my Throat; whereby my Nights Rest was greatly disturbed; but by applying to *Turlington's Balsam of Life*, I was (after two or three times taking) perfectly cured. I *John Groves*, of the Parish of *St. James, Clerkenwell*, being afflicted with a very excessive Pain in the Stomach and Back, as also in all my Limbs, accompanied with a Twisting of the Guts,

Mr. *Davies* having a bottle, gave me about 25 Drops thereof, which occasioning a gentle Sweat for 2 or 3 Hours, in the mean time I found my Pains surprisngly abated, and by repeating the like Dose, they entirely ceased : So that I may justly say, that by the aforesaid *Balsam* I was rescued, as it were, from the very Jaws of Death. For which Reason I desire the same should be communicated to the World, as it may be of sovereign Use in the like Malady. Witness, *C. Davies.* *John Groves.*

I Charles Bates, at the *Yorkshire Grey*, in *St. John's Lane* (formerly of the *Christian Coffee-house*, by *Smithfield-Bars*) was for near 12 Months afflicted with a Decay of Nature (occasion'd by a violent Cold) attended with Stitches in the Side, and a great Pain in the Loins. My Case appearing desperate, I was recommended to the Hospital ; but accidentally meeting Mr. *Turlington*, he gave me a few of his *Balsamick Drops*, which not only render'd me present Relief, but (by continuing to

Neigh-

Neighbour Mr. *Robert Turlington's Balsam of Life*; I had recourse thereto, as the only Medicine of which I had any Hopes, and found such immediate Service thereby, that in less than two Days I was in as good a State of Health as I ever was in my Life; and this (in Regard to the benefit received, without Fee or Reward) I am ready to make Oath of, if the Veracity thereof should be question'd.

July, 16, 1742.

Benjamin Cole.

I *Thomas Cran*, Hostler at the *Bell-Inn* in *Friday-street*, was violently afflicted with a cold, and at the same time such an acute Pain in my Thigh, that it communicated the Anguish to my very Toes, insomuch that I was render'd incapable either to walk or stand. On which disastrous occasion, I applied myself to *Turlington's Balsam of Life*, and by only once taking thereof, found myself so well as to be able to walk without a stick; and by once more taking some of the aforesaid incomparable Drops, was perfectly recover'd and able to go about my business as usual, to the Admiration of all about me.

S I R,

BEING for several months loaded with a complication of disorders, *viz.* Lost appetite, vomiting of blood, pains almost intolerable, and scarce any sleep, night or day, so that life was an inexpressible burthen; at length being perswaded by a friend to try your (so justly called) *Balsam of Life*, I am, by taking only two bottles (thro' Gods assistance) restored to as perfect a state of health as man can wish for. Jane Ward

I *Robert Barnard*, Butcher, at *Bell-wharf*, in the Parish of *St. Paul Shadwell*, was so violently afflicted with a Cough, as to be thereby deprived of Rest almost all Night long, for a great while together. This I affirm to be the real Truth and undeniable Effect of the aforesaid *Balsam of Life*.

This I aver to be real truth, and am, Sir, your humble servant,

*Christopher Drake.*

*Devon, West-Trimouth, April 1, 1748.*

*Note, The original of the above certificate, with Mr. Whitborn's letter, is to be seen at Mr. Turlington's house, in Ball-Alley, Lombard-street.*

**W**HEREAS Mrs. Frances Bateman, of the Parish of St. James, in the Isle of Grain, near Rochester in Kent, was for some time very much troubled with a violent cough, and stoppage at the stomach, which at times obstructed her breathing, yet on making use of Mr. Turlington's balsam of life, it occasioned a discharge of

a gristly substance, with a small hole through the middle; after which she found immediate relief, and has continued to breathe freely ever since. In testimony whereof I have hereunto subscribed my name in my wife's behalf, this 3d of June, 1748.

**M**Y drops having relieved the right hon. the Lord Viscount *GALLWAY*, of *Grosvenor-Street*, from flying gouty pains, and sickness in his stomach, loss of appetite, and frequent vomitings, which had continued a long time, he has promised me the favour of satisfying any one (who shall please to inquire of him) of the truth thereof.

*May 18, 1748.*

*Robert Turlington.*

By Authority of Lord Viscount *Gallway*,

Witness, *Robert Evans.*

**SIR HUGH SMITHSON**, bart. of *Grosvenor-Street*, having been for a long time afflicted with a gouty disorder in the stomach, and having taken a great number of other medicines to no effect, afterwards found great relief by *Turlington's* balsam of life; the truth of which he is ready to testify, and by whose authority this is published.

*May 21, 1747.*

Witness *Richard Broughton.*

( 54 )  
**M***R*S. *Jane Turlington*, daughter of Mr. *Isaac* and Mrs. *Elizabeth Turlington*, of the parish of *St. Leonard Shoreditch*, being terribly afflicted with fits, occasion'd by the fright of the late dreadful fire in *Cornhill*, (which seized her every day with so much violence, that two or three people could not hold her) application was made to *Turlington's* balsam of life, about 30 drops whereof gave her immediate relief, in less than 5 minutes her natural colour was restored, and by continuing to repeat the same, whenever she found herself inclinable to faint, has had no return since the 30th of *March* last.

Witness my hand (the father of the said *Jane*) *Isaac Turlington*.  
Witness, *Richard Barnes*, *June 16, 1748*.

**I***N* a grateful sense of the benefit received by Mr *Turlington's* balsam of life, I hereby declare, that I was for 4 or 5 years tormented with a violent griping, belly-ach, and looseness (which fluxy disorder, by its frequent and almost continual purgation, had brought me exceeding low) and could acquire no relief, till I applied to the said so justly named balsam of life, which by God's blessing restored me to that perfect health I now so happily enjoy; and which I am willing and ready by an affidavit to attest,

*bed. long at Phil. Ellis,*  
at Mr. *B. Adams's*, at the *Globe, Blackwall*.  
Witness *Benjamin Adams*, *April 23, 1748*.

To Mr. Turlington.

S I R,

AS mankind are sensible of the benefit from medicine, and as it is usual in many cases for the patient publickly to acknowledge from whom he receives benefit, in justice to your drops I think myself bound to declare, that on the 20th of this Instant *July* I was seized with a rheumatick or gouty pain in my right leg and thigh, so that I was not able to move any where but by assistance and crutches; but by taking only half a bottle of your drops, on the third day I was able to walk two miles; which under God I believe to be owing to your drops call'd the balsam of life; and now am as well as ever.

Witness my Hand this 26th Day of  
*July*, 1748. *J. Williams,*

To be heard of at the *Salutation* tavern in  
*Newgate-Street.*

*The abovenamed J. Williams on his oath saith, that so far of the above letter to Mr. Robert Turlington, as regards the disorder this deponent was in, and the surprising Cure this deponent received from Turlington's balsam of life, are true.*

Sworn this 26th day of *July* 1748, at *Grocer's-Hall*. ROBERT LADBROKE, Mayor.

**I** *Richard Heaton*, master of the ship  
*Young Charles*, taking the diversion of  
 hunting at *Narva* in *Sweden*, and being  
 over-heated thereby, drank near a quart  
 of water, which threw me into such a strong  
 convulsion, that it was thought impossible  
 for me to survive; but having the good  
 fortune to have a bottle of *Turlington's*  
 balsam of life on board, I took about 30  
 or 40 drops thereof, and was in about an  
 hour perfectly restored. This I declare  
 to be effected, under God's providence,  
 only by the said balsam of life, as witness  
 my hand this 16th day of *August*, 1748.

Witness *John Dobee*      *Richard Heaton*.
